To whom it may Concern:

I wish to write a personal recommendation for Chad Rothacher, RMR. We had a major fire in February of 2008 in which a major portion of Three Bear Lodge was destroyed and a larger portion was torn down to comply with code issues.

Chad helped with architect selection, engineering firms and handled the demolition. Chad was meticulous in every detail with all of the subcontractors and held them to their bids. He was professional in every way and had a good report with the Town of West Yellowstone. He was willing to give credit for the specific jobs we preformed and brought the project on line in a timely manner.

For a visual look at the Job he completed got to our web site, home page. www.threebearlodge.com . It is now the most striking building in West Yellowstone.

Feel free to contact me directly for further comments.

Clyde G. Seely

Owner, Three Bear Lodge
