Dear Chad,

During the past 8 months the RMR Group has built my family a beautiful home. I would like to take this opportunity to thank you for your hard work in providing us with all that was promised. In owning a construction company myself, I truly understand the many challenges that the owner and the contractor face from the start of a project through completion. Donna and I were very happy with your organization, workmanship, and honesty which made all of the challenges disappear.

I know you were surprised in how quickly I made my decision to use your organization for a project that was important to us. But I have always prided myself in picking good "horse flesh"; selecting the correct contractor is paramount to a successful project. We both know the construction process becomes long, arduous, and expensive with the incorrect contractor. I am very happy that I followed my instincts.

Again, we would like to thank you for all that you did for us and feel free to use us as a reference in the future. You should be proud of the quality organization that you have built.

Sincerely,

Michael B. Patrick
